Mavlonbek Sultonbekov
Software Engineer

UK, Cambridge   UK +4407881196552   mavlonbeksultanbekov3@gmail.com

 Github   Website

A highly motivated and self-driven Full Stack Developer with a strong foundation in JavaScript, React.js, and Node.js, and a proven track record of building scalable web applications.

EXPERIENCE

SpeedFixPlumbing LTD
2024-05-12 - 2025-03-11

Website / Full Stack developer

https://speedfixplumbing.co.uk/

- Led the end-to-end development of Speed Fix's modern web platform using **React.js** on the frontend and **Node.js + Express.js** on the backend.

- Built secure and scalable backend APIs to handle contact form submissions, integrate with **EmailJS**, and manage client data with high reliability.

- Designed and deployed a lightweight backend with **custom routing, validation, and error handling**, ensuring fast response time and clean architecture.

- Integrated **MongoDB** as a NoSQL database to persist user inquiries and track service requests.

- Implemented **advanced SEO strategies**, including structured data with **JSON-LD**, sitemap generation, and `robots.txt` configuration for maximum Google indexing efficiency.

- Connected and verified a custom domain with **Vercel** deployment and **Google Search Console**, achieving successful live indexing and analytics tracking.

- Contributed to business growth by aligning technical features with service goals, resulting in improved customer trust and lead conversion.

Quy Mill Hotel & Spa – Cambridge, United Kingdom
2025-04-01 - Present

Front Desk Receptionist

Handling guest check-ins and check-outs with professionalism and attention to detail in a fast-paced hospitality environment.

- Manage bookings and customer inquiries, ensuring a smooth and welcoming guest experience.

- Communicate clearly with international visitors, developing strong **interpersonal and problem-solving skills**.

- Maintain accurate reservation systems and coordinate with housekeeping and management for seamless operations.

- Balance multiple responsibilities under pressure, while maintaining a positive, service-focused attitude.

Co-op Food Market
2024-10-10 - 2024-12-26

Customer Service

Worked in a fast-paced retail environment, delivering excellent customer service and ensuring store operations ran smoothly.

- Assisted customers with purchases, returns, and product inquiries, maintaining a friendly and helpful attitude.

Handled point-of-sale (POS) systems and managed cash transactions with accuracy and accountability.

- Restocked shelves, managed stock rotation, and helped keep the store clean and organized.

- Developed strong **communication**, **time management**, and **problem-solving** skills by interacting with diverse customers daily.

PROJECTS

Portfolio
Live Link | Github Link

My personal portfolio website, <u>mavlonbek.com</u>, showcases my skills, projects, and developer journey as a Full Stack Developer. Designed with **React.js** and styled using **Tailwind CSS**, the site delivers a sleek, modern UI that reflects my attention to detail and design aesthetics.

I implemented a **fully functional contact form** powered by **EmailJS**, integrated multilingual support (**English, Uzbek, Russian**), and optimized the site for SEO with a custom `sitemap.xml`, `robots.txt`, and structured data (`JSON-LD`). The domain is fully verified via **Google Search Console**.

The website features my latest projects with GitHub links, a downloadable resume, and a blog section designed for sharing insights on development, learning, and personal growth in tech. The responsive layout ensures smooth performance on all devices, and the overall structure is built for scalability and future feature expansion.

SpeedFixPlumbing Company
Live Link | Github Link

Developed a full stack web platform for a local UK plumbing company (<u>speedfixplumbing.co.uk</u>) to boost online presence and simplify client communication. The project included multilingual support, real-time email integration via Node.js, and SEO optimization for better local discoverability.

EDUCATION

Anglia Ruskin University - Cambridge, UK
2024-09-29 - 2027-05-20

Bachelor - Software Engineer

Currently pursuing a Bachelor's degree in Software Engineer with a strong focus on software development, data structures, algorithms, and full stack web technologies. Through both academic and self-directed projects, I have built hands-on experience with modern frameworks, cloud deployment, and real-world application design.

My coursework includes modules such as Operating Systems, Software Engineering, Data Science, and Human-Computer Interaction. At ARU, I actively engage in coding challenges, collaborate on group projects, and explore technologies beyond the classroom — including backend systems, APIs, and web optimization.

The university's vibrant tech environment and access to Cambridge's innovation ecosystem have further enriched my learning experience and professional growth.

Najot Ta'lim Academy-Uzbekistan
2023-10-12 - 2024-06-23

Certificate - Web Development

Completed an intensive full stack web development program focused on modern technologies including JavaScript, React.js, Node.js, Express, MongoDB, and Git.

Gained hands-on experience by building responsive, real-world web applications, learning deployment strategies, and collaborating on code via GitHub.

The course emphasized clean code, scalability, and practical skills required to become a job-ready full stack developer.

SKILLS

Programming & Web Development:
: HTML5, CSS3 (Tailwind CSS, SASS)

HTML5, CSS3 (Tailwind CSS, SASS)

: React.js, JavaScript

: Node.js, Express.js

Tools & Platforms:

: Git , GitHub, Google Search Console, SEO tools

: Vercel, Domain & DNS Configuration

LANGUAGES

- English - Fluent

- Uzbek - Fluent

- Russian - Advanced
